ADDENDUM TO
2026 SSYC SAILING INSTRUCTIONS FOR
SSYC RACE WEEKEND

Pre- Start Period: All boats must check in for each race with the Race Committee by sailing past the stern of the Race Committee Boat.

Starting sequence will be modified as follows:

The "F" (attention) flag will not be displayed for the start of the second race. A sound signal will be made one minute before the class flag for the next fleet is raised.

The continuous starting sequence may be broken at the committees' discretion due to other classes finishing their first race, or the next starting class is not ready to start. If the continuous sequence is broken, a sound signal will be made one minute before the class flag for the next fleet is raised.

Starting and Finish Lines

The starting line will be from the mast on the committee boat and the floating mark on the committee boat's port side. The finish line will be from the mast on the committee boat to the orange tetrahedron on the committee boat's starboard side.

If an "On Station Flag" (orange or blue) is up, the starting and finishing lines will be closed. Meaning, while racing, a yacht shall not pass through the start or finish line except when she is starting or finishing.

Normal Class Starting Order

The normal class starting order will be modified as follows:

1. Lightning (Saturday/Sunday)
2. J70
3. J-24
4. Arrow
5. Dolphin
6. Cruising
7. Flying Scot
